

DECORATIVE LAMINATES

volume: fifteen

www.airolam.com

Flamboyant design forms

Revitalize your interiors with chic laminates that bring a touch of luxury to everyday spaces. Let your decor tell a story of elegance and innovation!

SHAPES & FORMS

Where geometry meets glamour, a captivating interplay unfolds, transforming spaces with bold shapes and fluid forms. This dynamic fusion not only redefines aesthetics but also elevates functionality, creating environments that inspire and evoke emotion. Curved lines dance alongside sharp angles, inviting exploration and engagement. Each design choice becomes a statement, reflecting a harmony between structure and style. From modern interiors to striking exteriors, this approach breathes new life into everyday spaces, making them both visually stunning and profoundly inviting. The result is a celebration of creativity that challenges conventional boundaries and promotes the beauty of innovation.

Create a stunning backdrop with versatile laminates that combine flair and resilience.

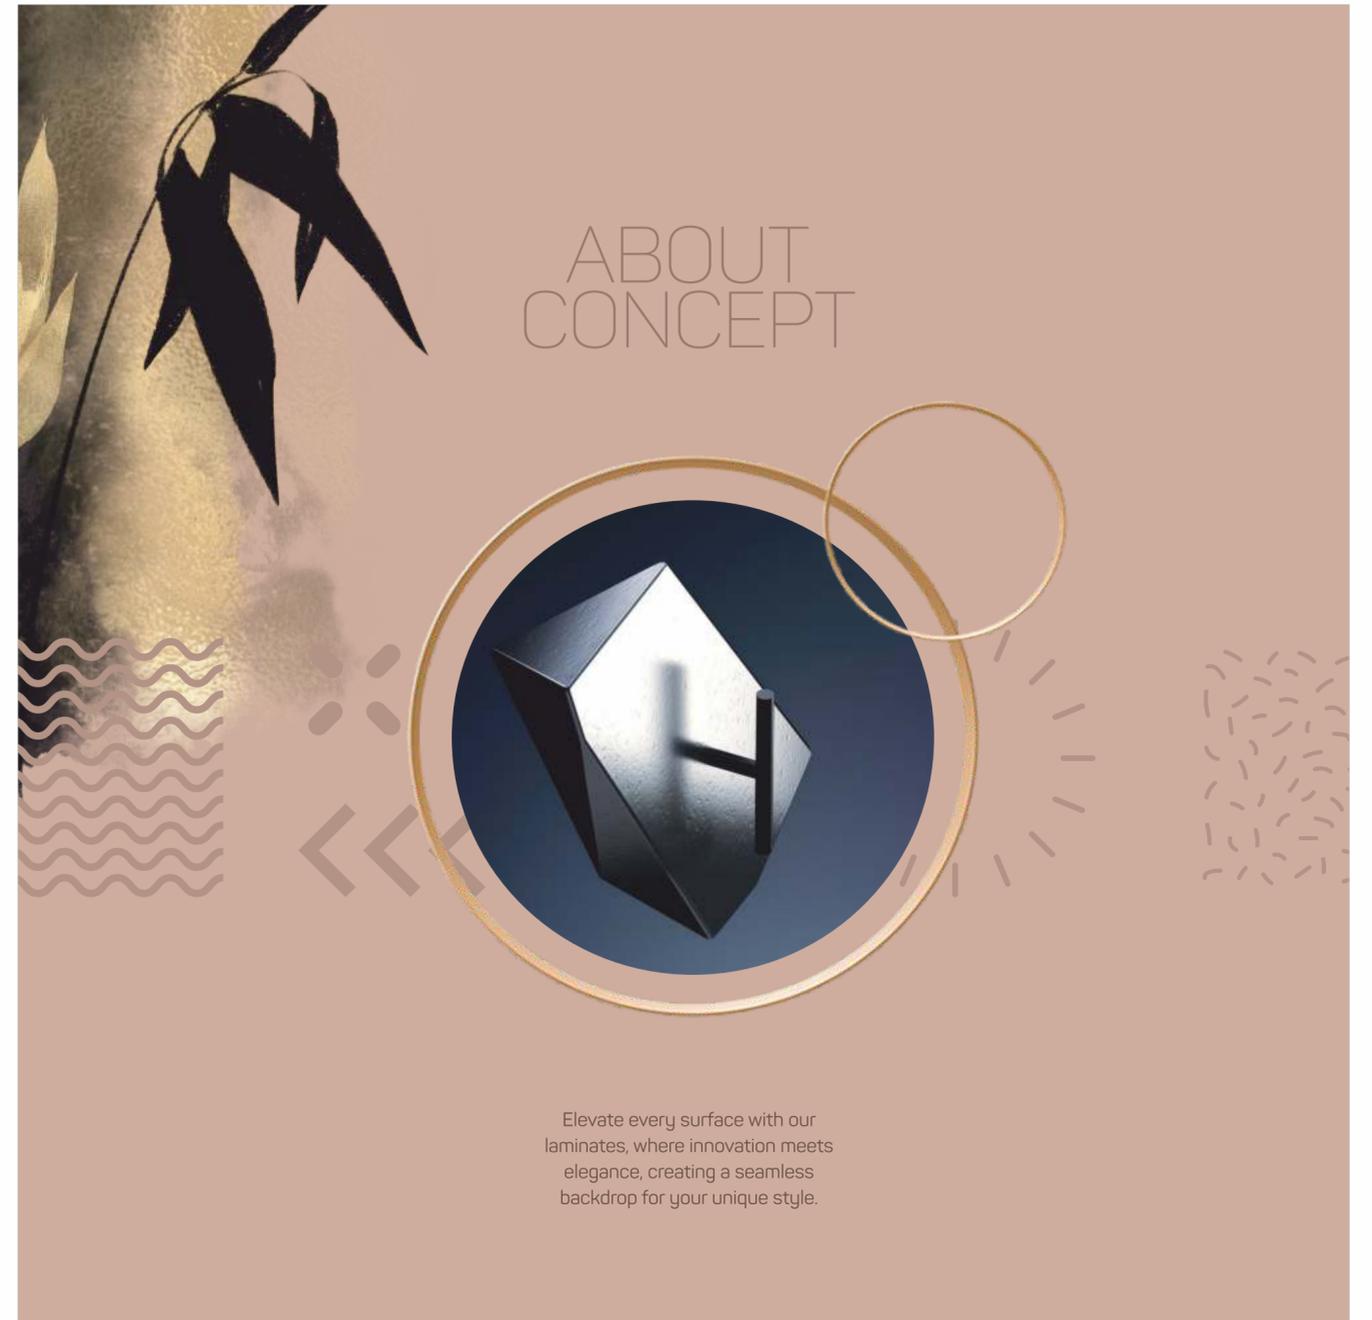

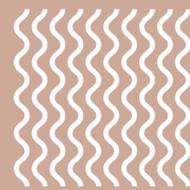

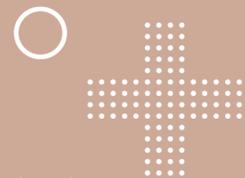

Transform any area into a stylish haven that speaks to your individuality!

Stunning aura of patterns

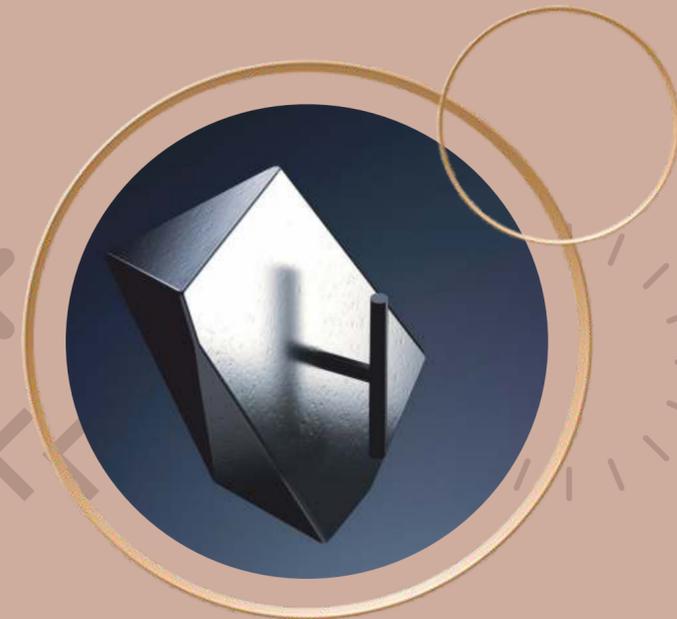

Stylized background text: "Stylized"

Unveil a world of sophistication with our exquisite laminates, where each design tells a story of timeless beauty. Crafted to perfection, they elevate your interiors with a touch of luxury and charm. Experience the art of elegance in every detail, transforming your space into a stunning masterpiece.

ABOUT
CONCEPT

Elevate every surface with our laminates, where innovation meets elegance, creating a seamless backdrop for your unique style.

Transform your space with laminates that blend artistry and durability, bringing your design dreams to life.

Chic patterns

go for glamour

Choose niche surfaces for an aesthetic environment

Traceless Surface

Easy to Clean

High Scratches Resistance

Non-reflective Surface

AIROLAM PRESENTS AFPL, ANTI FINGER PRINT LAMINATES.

MADE WITH SPECIALIZED TECHNOLOGY, THIS RANGE IS ALL ABOUT ITS SPOTLESS AND FLAT SURFACE.

AFPL SURFACES ARE ALSO ANTI-MICROBIAL, HYGIENIC AND RESISTANT TO SCRATCHES.

THE LAMINATE SURFACE IS SMOOTH TO TOUCH AND ALSO STRONG.

BENEFITS:

- ELIMINATES THE POSSIBILITY OF FINGER PRINTS AND SMUDGE MARKS
- SOFT TO TOUCH AND HAS VERY LOW LIGHT REFLECTION PROPERTIES

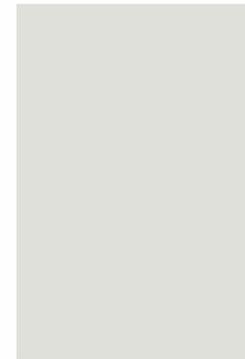

ANTI FINGER

metal makes it magic

GEOMETRINO

Chic decor for all those who believe that luxury should be a lifestyle

META

metal foil range

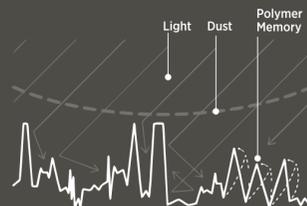

LUCE

innovative surface

Low light reflectivity, extremely matt surface

The matte surface reduces glare and makes the item easier to see from all angles. Whereas the direct lighting will be used to illuminate the printed artwork.

Soft touch

Provides a matt protective finish with a velvet-like texture. Because of its appealing surface, this unique finish encourages consumers to interact with the object.

Anti-finger print

A special laminate that has incredible resistance to fingerprints, with a satin-smooth, luxurious surface

Scratch Resistance

The scratch resistant decor of the product lasts for years without fading or loss of gloss maintaining colour fastness.

THERMAL SELF-HEALING

Activate repair of scratches with heat, enhancing durability and appearance, making them ideal for high-traffic areas.

APPLICATIONS

Luce is particularly ideal for applications in:

Interior	Child Care	Healthcare	Hospitality	Others
Kitchen	Kindergarten	Hospitals	Hotels	Office
Bathroom	Preschool	Clinics	Restaurants	Furniture
Dining Tables		Pharmacies	F&B outlets	Pharmaceutical

Melamine foam is a magical foam that can clean or eliminate external markings on surfaces that are otherwise "uncleanable." These are foam-like materials that are safe to use in the home and are highly suggested for cleaning surface micro-scratches. Crayon, marker pen, grease marks, and other marks can be removed by rubbing with slightly damp melamine foam.

GENERAL CARE & MAINTENANCE

• **Storage & Carrying:** Always store the sheets face down and in a horizontal position. To protect the sheets from damage, put a hard cover on top of the stack. Make sure to stock the laminates in a way that older sheets are used first. Store the laminates in a place, which is free from moisture and away from doors & windows.

The sheets should be carried vertically. Avoid sliding the sheets, instead lift them while moving them from one place to another. To avoid any damage, 2 people should carry one sheet.

• **Stains:** The laminates are resistant to stains belonging to Group 1 and 2. Solutions of Group 3 and 4 should not be spilled on the surface. If spilled, wipe off the solution from the surface immediately.

• **Abrasives:** The use of abrasive pads, scouring powders or cleansers can make the laminates susceptible to staining and permanently damage them.

• **Harsh chemicals:** To avoid etching and discoloration of laminates, keep them away from harsh chemicals such as oven cleaners, toilet cleaners, or drain cleaners. If spilled over the surface, wipe off immediately, rinse thoroughly, and wipe dry.

• **Hot Objects:** Laminates have high heat resistance, but exposure to temperatures greater than 135°C is not recommended. Do not expose the laminate to temperatures above 65°C as it may cause the laminate to separate from the substrate. It is highly not recommended to place hot frying pans or dishes directly from the oven or cooktop on the laminate surface. You may use a trivet or insulated pad to protect the surface from heat generating appliances.

• **Sharp Objects:** Do not use knives or other sharp objects on the decorative surface. Use a chopping block or counter saver to protect the laminates.

• **Impact:** Even though the laminates have excellent impact resistance, but regular heavy impacts directly on the surface may cause chipping or cracking.

MANUFACTURER'S RECOMMENDATION FOR CARE & MAINTENANCE:

Laminates made up of melamine resin saturate décor paper & surfaces are easy to clean. There is no need to care for them with any special product.

We recommend using Electrostatic or Microfiber broom (spray broom) for daily cleaning.

Normal dirt accumulation after long time - We recommend cleaning the surface using mixture of a non-abrasive household detergent and hot water with a sponge or cloth. Use wooden or plastic spatula to remove any solid dirt.

Stubborn Stains - For cleaning, we recommend using liquid detergent and water mixture soaked overnight. Also, keep adding ¼th part acid from time to time to the mixture. (E.g. For a mild acid based cleaner - Add 1 part acid cleaner to 4 parts water or distilled water). Use only organic solvents for any headstrong marks.

Runny liquids should always be cleaned promptly, mainly in the areas which have grooves & joinery. The appearance and solidity of the laminate may be affected, if it stays submerged or covered in the liquid for an extended period of time.

Stains are segregated in the following groups as per the severity of the stains left behind on laminate surfaces.

- Group 1: Acetone, toothpaste, hand cream, urea, alcoholic beverage, vegetable oil, water, NaCl (solution), soap solution and citric acid.
- Group 2: Coffee, black tea, milk, cola beverages, vinegar, hydrogen peroxide (3% solution), nail polish remover, water color.
- Group 3: Sodium hydroxide (25% solution), hydrogen peroxide (30% solution), concentrated vinegar (30% acetic acid), acid-based metal cleaners, hair coloring, boric acid, lacquers.
- Group 4: Citric acid (Zero % solution), acetic acid (5% solution).
